MESSAGE FROM THE PRINCIPAL

Educationists should build the capacities of the spirit of inquiry, creativity, entrepreneurial and moral leadership among students and become their role model. -Dr. APJ

Preparing the young minds to meet the challenges of life and work is a herculean task, but not an impossible one. There are many ways to sharpen their intellect and creating opportunities is one. An educational institution creates opportunities for the young and the talented and elicits fruitful responses. A variety of activities are conducted every semester to hone the skills of the students and the last quarter witnessed a series of activities which helped them to learn a lot. On campus, we partner with every possible outside resource to enhance and nurture the knowledge skills of the students, because the vibrant spirits of the students should always be kept alive.

I congratulate the students for their efforts and wish them the very best for the ensuing examinations!
