SOFT SKILLS

Mark-up soft skills include any skill that can be classified as a personality trait or habit. Interpersonal skills and communication skills are more specific categories of soft skills that many employers look for in job candidates. Soft skills play an important role in resume writing, interviewing and finding success in communicating with people at work and in other areas of your life. Soft skills are often transferable across careers and industries. As a result, you may find that you possess many of the required traits even if you don't match the exact profile in a job description. As you search for jobs, pay special attention to posts calling for candidates with soft skills or traits you possess. Even if the job title isn't a great fit, you may find that the description makes sense for you. As you progress through the job search process, keep your resume updated to reflect soft skills most relevant to the jobs you're applying for.

Focus Academy for Career Enhancement

Focus Academy for Career Enhancement (FACE) is an IIM Graduates' Enterprise designed to cater to the vast and varied needs of today's student community. We provide the right perspective regarding various career options available to the students and sufficiently train them to pursue their careers of choice. Given the clutter of career options available and prevalent group tendencies amongst students, FACE believes that expert guidance and training can help students streamline their energy towards their chosen career paths.

The core philosophy of FACE is "Any student, if given the right kind of inspiration, motivation, training and sufficient exposure to the opportunities available, will certainly be able to realize his/her potential." With all our service offerings woven around this philosophy, FACE aspires to become the go-to-service provider for educational institutions who seek expert help for their student community to identify and attain the career of their choice.

Four key reasons why FACE will make a difference to your institution:

Best in class Faculty - Our faculty consists mainly of 95 plus percentilers in CAT, including several IIM graduates. Our trainers are achievers themselves, who will act as an inspiration to the students and help dispel various myths around the placement process.

Unique Pedagogy- Cracking placements is more about skill than knowledge. We teach verbal ability rather than just English; we train on aptitude rather than Maths. Understanding and internalizing this crucial difference makes our pedagogy unique, interesting and effective. Equally important, we emphasise and ensure continuous engagement rather than ad-hoc programs as the key to making a significant impact on the skill levels of your students.

Campus placement experience— Having been part of placement committees in premier institutes, we understand the nuances of campus recruitment. Moreover, in our corporate lives we have been part of recruiting teams, so we know what industry is looking for. We will be able to marry the two and add value to your institution's placement cell by sharing our knowledge about methods of approaching and attracting companies to your campus.

Proven Track Record: In just 9 years, we have become the market leader in India in the employability enhancement training space. We 800+ full-time trainers in the placement training industry in India. We work with over 1500 engineering colleges and have trained more than 15 lakh students so far. We have made significant impact in placements of every kind of college - government and private, old and new, established and upcoming. We have even set world-records.

About us

Founded in 2018, NewLeaf Ins has been dedicated to training numerous students for diverse employment opportunities. Please take a moment to review our Mission and Vision

Our Mission

Nurture and shape all aspiring students into the visionary futuristic leader. We inspire and prepare them through our scientific and practical training.

Our Vision

To realize the dream goal of equal growth opportunity to the communities you serve through your efficient leadership qualities.

Why Choose Us?

- New Leaf learning solutions has proven expertise in capacity-building training which is achieved through our strong training partners.
- We have portal-based high standard questions, video-based solutions. We have OJ's platform for technical, writes platform for essay writing.

- Choose New Leaf Training, We tune our trainees to narrate a story.
- Writing is a craft, Storytelling is an art
- Writing isn't magic. Writing is math. It's placing letters and words and sentences after one another to form a grand equation. Writing is the abracadabra - the power word made manifest - but the story that results is the magic. That equation that we piece together tells a tale and the arrangement that leads to that tale is where the true art lies because it takes an ice scraper to pretense and throws an invisible - yet - present tow line from present to past. Writing is craft and mechanics. Storytelling is art and magic.
- Stories have power Effect above entertainment Stories have shape, even when they don't mean to. The story is a map; the plot is the route you choose. On the subject of originality. The bridge between candidate and HR. Always ask, why do I want to tell this?
